EDUCATION

VELALAR COLLEGE OF
ENGINEERING AND TECHNOLOGY
BE Computer Science Engineering
CGPA: 6.8 | 2023 - 2027

SREE SARAVANA NIKETAN MATRIC
HIGHER SECONDARY SCHOOL
Grade 12 - HSC
Percentage: 85.7% | 2022 - 2023

SREE SARAVANA NIKETAN MATRIC
HIGHER SECONDARY SCHOOL
Grade 10 - SSLC
2020-2021

SKILLS

- Generative AI
- AI agent
- UI/UX Design
- Prompt engineering
- Langchain
- Python
- Java

CERTIFICATIONS

- AI in Action Job Simulation - VISTA
- GenAI Powered Data Analytics - TATA

CO-CURRICULAR ACTIVITIES

- School Handball Team Participant demonstrating discipline.

ABOUT ME

Passionate Computer Science Engineering student with hands-on experience in AI agents, automation, and web technologies. Seeking internships and project-based roles to apply problem-solving and AI-driven solutions in real-world applications.

PROJECTS

AI RESUME ANALYSER

Role: AI Engineer

Description: Built an AI-powered Resume Analyzer to evaluate resume quality, ATS compatibility, and job-role alignment using intelligent document parsing and NLP. Provided personalized, actionable feedback on keywords, formatting, and content to help candidates strengthen their applications.

Tech Stack: AI Agent, NLP, Resume Parsing, Machine Learning.

TELEGRAM CHATBOX

Role: AI Engineer

Description: Built a Telegram-based chatbot integrated with an AI Agent to automate responses, provide intelligent assistance, and perform user-defined tasks. Focused on natural language interaction and context-aware conversation flow.

Tech Stack: AI Agent

AI CODE BEHAVIOUR PREDICTOR

Role: AI Engineer

Description: Developed an AI-powered system that analyzes source code and predicts its functionality or behavior using machine learning and natural language processing. Integrated LangChain for contextual code understanding and automated code explanation.

Tech Stack: Machine Learning, Langchain, NLP

ACHIEVEMENTS

- **Participated in Hackathon 2024** - Developed a sustainable agriculture prototype.
- **Competed in Techgrium Hackathon** - Presented an Android-based data visualization app.
- **Participated in the College Thinkathon** - Collaborating in a team to design and present an innovative solution to a real-world challenge under time constraints at Velalar College of Engineering and Technology.
